A GUIDE TO CREATIVE *Colours & Finishes*

We recommend using this guide to request a painted sample from us prior to placing your order

About BSD Scotland Ltd

Founded in 2015 by a team of designers and manufacturers, we operate out of a large factory locally in Prestwick, Ayrshire.

Bi-fold & Sliding Doors Scotland Ltd is a company founded with the ethos to be the best in the manufacturing field of aluminium and glass doors systems.

We work hard to manufacture our products to your exact specifications and requirements. We can advise from your initial concept to delivering your final product, overcoming any obstacles that may arise through the process.

We have a commitment to supply the best value aluminium glass doors in a timely manner and at competitive prices, ensuring each and every client is fully satisfied.

Experience & Know-how

Craftsmen, designers, glazers, architects and administration staff make up our fine-tuned team to handle your account. A tight-knit collaborative effort with many years combined experience ensures a product you will love.

Quality Bespoke Products

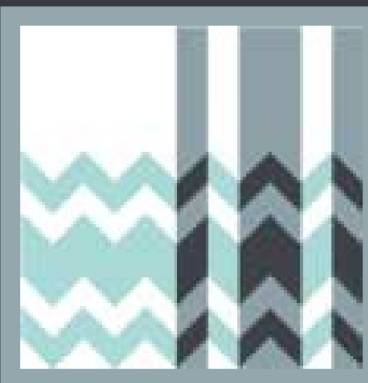

Only exceptional source materials are used for our Bi-fold & sliding doors alongside double or triple glazed windows,

Reliability, Security & Integrity

We are committed to transparency, a no 'hard-sell' policy, upfront pricing and guaranteed parts & delivery! You can experience peace of mind as we safely handle your project from start to finish.

Economical

Technology has revolutionised the materials and methods used in house building in recent years, so previously unattainable bi-fold or sliding door systems can now be fitted almost anywhere.

Manufacturing Process

Only exceptional source materials are used for our Bi-fold & sliding doors alongside double or triple glazed windows,

Durable, beautiful and *guaranteed* to last

Committed to the highest standards of product quality and workmanship, we undertake a rigorous regime of quality inspections and controls, ensuring our powder coated products comply with all the requirements of the relevant British, European and Qualicoat* standards. We are proud to back our advanced production processes with the assurance of a 25-Year Paint Guarantee, which covers the coated aluminium against any of the following faults:

- Peeling, powdering and blistering
- Corrosion except due to bending or folding after the application of the paint
- Chalking, fading and loss of sheen out of the Qualicoat* regulation
- Filiform corrosion

Our polyester powder coatings are the most advanced of their kind in the UK.

This allows us to provide the widest range of high quality standard and non-standard colours and finishes for virtually every requirement. Each finish meets the demanding marine-grade standard*, enabling our systems to be used in even the most challenging environments.

Starting with alkaline and acid based and 100% chromate free, this stage of finishing ensures the aluminium is perfectly prepared, ready for the polyester powder coating to be evenly and smoothly applied to the surface. The result is a beautiful, durable and low-maintenance finish.

Reflecting our commitment to sustainable manufacture, our finishing plant incorporates a number of environmental features. These include rainwater capture and use filtered and cleaned water in the pre-treatment process, and a powder recycling system, which captures and re-uses 98% of all excess powder.

* Marine guarantee applied for separately. Qualicoat is a quality-label organisation established to maintain and promote the quality of coating on aluminium and its alloys.

Choosing the *right* colour for your home

Request a painted sample of your chosen colour before making your final decision.

Having selected the finish for your project, simply speak to your supplier and they will arrange for a sample to be sent to you. This is a very important stage in making completely sure the tone and shade are exactly what you want. We have taken great care to make the colours in this brochure a close representation of the finishes available. We always recommend viewing a painted sample of aluminium before making your final decision.

Our extensive and varied range of colour and finish options provides inspiration for all types of properties. From contemporary urban homes to traditional Cotswold cottages, we have the perfect colour to suit every project in any location. The complete range includes our ever-popular Naturals, Sensations, Cotswold and Alchemy collections, as well as the all new Creations colour palette, developed specifically to suit our range of Designer Doors.

Alchemy

Combines the best of anodised and powder coated finishes

Introducing an innovative new range of anodised effect colours that combine the unique style and aesthetics of anodising with the protective qualities of a high quality powder coated finish.

Cotswold

The perfect colour palette for traditional projects and conservation areas

The classic shades and warm tones in our Cotswold range have been developed to provide the perfect finish for both new-build and heritage properties alike.

Naturals

Inspiring colours and finishes for contemporary architecture and restoration projects

Beautiful colour-rich coatings, in a variety of versatile shades, the ever popular 'Naturals' range offers style and protection for all your Smart windows and doors.

Having selected the finish for your project, simply let us know and we will arrange for a sample to be sent to you.

Creations

The perfect finish for our Designer Door range

Our Creations colour range for Designer Doors offers a vibrant palette of seven classic colours to inspire the perfect focus point for your home. The range includes bright timeless classics which will add beauty and elegance to any door.

Our unrivalled range of colours are available in a choice of textured and non-textured finishes. All of which are scratch and corrosion resistant.

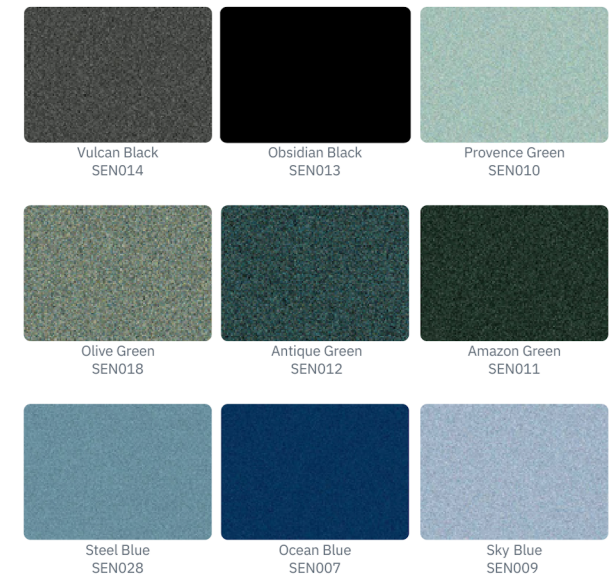

Sensations

The 'Sensations' colours feature excellent design qualities

An exclusive range of metallic finishes that combine with a unique tactile finish to bring style and durability to any building project. Ideal for both modern architecture and restoration projects, 'Sensations' broad palette of colours and provides a unique finish to windows and doors.

Our systems have been designed to not only withstand all that the elements can throw at them, but also deliver minimum heat loss and great thermal efficiency.

The images, drawings and data shown in this brochure are for illustrative purposes only and are not binding in detail, colour or specification. We reserve the right to make changes to the product specification as technical developments dictate and without prior notice. We recommend that the user ensures that they are satisfied the product meets their requirements prior to purchase.
